**Subject:** Comments on Patent application

I am unfamiliar with patent protocol, so they may be completely appropriate, however if I was delivering a professional report I would consider Figs 1, 6, 7, 8, 13, 15, 16, 17, 19, and 20 to be unprofessional and would redo them with less handwriting and more clarity.

Sorry these are so late. Let me know if you'd like to discuss.
